Doom Charts - Album review - 04/02/2018

„ Hell, the gritty “Freedom Fighters” may just become the anthem we were all looking to put a little fire in our belly in gumption in our function. Surely a sound like this is coming from the mountains of California? The deserts of Arizona, maybe? Okay, ya got me; it's Sweden, isn't it? As a matter of fact, for a sound this fresh you've got to high tail it all the way to Budapest, where there's quite an impressive stoner-doom scene – I've been telling you guys: keep your eyes on Hungary!

Stoner And More Blog (FR) - jeanmid - 03/08/2011

„Je souhaitais vous présenter ce soir ce groupe hongrois : Ozone Mama (en hommage aux Black Crowes ?) .

Ce quatuor basé à Budapest et actif depuis 2005 a apparemment pas mal galéré avant de pouvoir trouver les ressources financières nécessaires afin de produire et de réaliser de manière indépendante sa première galette " The Starship Has Landed " .

La musique d'Ozone Mama est fortement empreinte d'un mélange Heavy Blues Rock / Stoner aux sonorités très vintage . Pour autant la production a su mettre en avant les qualités intrinsèques du groupe : la belle voix plein de chaleur et de puissance , un six- cordiste autant adroit à la rythmique que dans les soli et enfin une section basse / batterie en béton !

Onze titres de haute volée que vous pouvez écouter en intégralité sur leur site officiel ICI Vivement conseillé !"
